Software Engineer - Pizza Hut Digital Ventures | Full-time | HCMC, Vietnam | 04/2019 - Present
> Our in-house teams of over 100 people spanning across 3 locations (London, HCMC and Dallas) have been focusing on rolling out the new Fast Casual Digital Store (FCDS) system for the Pizza Hut franchisees to deliver an exceptional experience for customers globally. At PHDV, I am responsible for market activations in Latin America and Iberia, working remotely and reporting directly to our engineering manager in Dallas. Technologies used include Node.js, React/Redux, Vue/Vuex, Docker, Terraform and AWS.

Science Teacher - Everest Education | Part-time | HCMC, Vietnam | 02/2020 - Present
> At E2 I have been delivering one-on-one tutoring sessions for students of varied ages and needs, with subjects ranging from secondary school Maths to SAT Biology.

Software Engineer - Gapps Oy | Full-time | Helsinki, Finland | 04/2018 - 01/2019
> On the path of becoming a Jack of all trades, I was responsible for software support and development of new products as well, with challenging projects coming from big names like Yle or Trimble. At Gapps I was also active in direct communications with customers to ensure their success and to provide them with the best service experience. Technologies used include Angular/React/Node.js, Java, Docker/Kubernetes, Serverless Functions and Google Cloud Platform.

Software Engineer - Gosei Vietnam | Full-time | Hanoi, Vietnam | 04/2016 - 08/2016
> At Gosei, my senior and I were doing development and maintenance for Assisting America - a loan management system for American students. Stack used: ASP.NET, Entity Framework, Microsoft SQL Server and HTML/CSS/JS.

Software Engineer - FPT Software | Full-time | Hanoi, Vietnam | 08/2015 - 04/2016
> At FPT Software, our team was implementing Microsoft SharePoint customizations for projects of Singapore's National Research Foundation. Stack included Microsoft SharePoint, Microsoft SQL Server and HTML/CSS/JS.

Intern - École des mines de Paris | Full-time | Paris, France | 04/2015 - 07/2015
> At MINES ParisTech I was doing cache profiling for further memory optimizations under the guidance of my supervisor. Stack used: C, Lex & Yacc, Valgrind.

EDUCATION

Aalto University, Finland, 2018 | EIT Digital Master School
> MSc. in ICT Innovation, Softwares and Services Architecture (2nd year)

Eötvös Loránd University, Hungary, 2017 | EIT Digital Master School
> MSc. in ICT Innovation, Softwares and Services Architecture (1st year)

University of Science and Technology of Hanoi, Vietnam, 2015
